

BUILD - UP

THEME:

Build- up is a 8 hours hackathon that will put your skills to the ultimate test. From thinking up your idea to materializing it, Build-up is going to put you through a surreal yet rigorous exercise. Students will be competing for the top place with coding and innovative thinking as the only weapons in their arsenal.

GENERAL RULES:

- At Least one of the given 5 tasks must be incorporated in the project.
- No domain/tech requirement (except the 5 given tasks)
- Project must be pushed on a github repository on regular intervals (will be specified on the event day)
- All team members should be present at the event. Leaving the venue for some time to hack elsewhere is fine.
- Teams can of course gain advice and support from organizers, volunteers, sponsors, and others.
- All work on a project should be done at the hackathon.
- Teams can use an idea they had before the event. (if they can incorporate at least one of the 5 tasks given)
- Teams can use libraries, frameworks, or open-source code in their projects. Working on a project before the event and open-sourcing it for the sole purpose of using the code during the event is against the spirit of the rules and is not allowed.

EVENT SPECIFICATION:

This will be an on-site hackathon.

The teams will be given a pool of 5 tasks/code-challenges that they will have to incorporate in their hacked project by any means necessary. They will have an option to take the code snippet for the particular task/code-challenge from us, or build/hack it together on their own.

There will be a separate list of themes based on which the teams will have to build/hack the project on, that will be revealed on the on the day of the event to the participating teams.

JUDGING CRITERIA:

To be disclosed at the time of event.

TEAM SPECIFICATIONS:

- Size - 1 - 4 people
- Inter-college teams allowed
- No constraints on year, batch, branch etc.

ELIGIBILITY:

All students with a valid identity card of respective educational institutes are eligible to participate.
